

Canadian Manufacturing Technology Show

Step into the future at CMTS

This year's Canadian Manufacturing Technology Show will be jam-packed with opportunities to network with industry peers, innovators and experts. But the show's main objective will be helping increase your knowledge about the processes, technologies and equipment to come.

Be prepared to take a giant leap forward from the moment you step into the Direct Energy Centre this October. From micro manufacturing, waterjet cutting, and robotics, to motion control, machine vision systems, plant engineering and more, live demonstrations will offer hands-on opportunities to discover the latest manufacturing developments. Experts from a vast range of manufacturing fields will be here to help you evaluate and compare cutting-edge technologies in areas that matter to your business. Whether you're looking to update equipment, implement new processes or initiate ideas, the innovations at CMTS are sure to inspire and energize your own thinking.

CMTS 2011 welcomes some of the biggest and most relevant exhibitors; innovators who are defining the future for manufacturing. Well-known companies such as 3M Canada, Benz Inc., Toshiba Machine, and Mitsubishi/MT Machinery, will present live demos of their latest technological developments. Additionally, CMTS is proud to showcase more than 150 new manufacturing products, many of which will revolutionize tomorrow's industrial world.

Canada's premiere national manufacturing event will open your eyes and your mind to new ways of thinking and working. Come and participate in technical conferences and informational sessions focusing on manufacturing sectors that are key to growing your business. Get a thorough understanding of laser cutting technology, manufacturing innovation in the transportation industry, and design challenges in medical device manufacturing. Talk to the experts and suppliers who can help you improve your manufacturing processes and, ultimately, your profitability. Be inspired at the keynote address by Dragon's Den Kevin O'Leary. Take part in the Automotive Summit moderated by TV, radio and print journalist John McElroy. Above all, get ready to step into the future at CMTS this October 17-20.
