

Canadian Manufacturing Technology Show

MCMASTER UNIVERSITY TEAMS UP WITH CMTS TO BRING YOU THE LATEST IN MANUFACTURING MODERNIZATION

This year CMTS in partnership with McMaster University is proud to introduce *Innovation Alley*, a designated area on the show floor exhibiting the latest in machining and manufacturing technology research. The McMaster graduate student research team will introduce technical presentations on the latest explorations in manufacturing.

Relevant topics to the latest advanced process include:

- Machining
- Metal Forming
- Polymer Processing
- Heat Treatment
- Casting
- High Performance Coatings for Manufacturing Tooling
- Process Optimization
- Rapid Product Development
- Production Monitoring
- Integrated Inspection and Closed Loop Production

An attraction to the *Innovation Alley* includes 3 McMaster cars designed by students using educated engineering principles; the solar car, the BAJA car and the SAE car. Don't miss out on this opportunity to speak with McMaster academics and students about the latest research and knowledge in manufacturing!
